

## YEAR 3 HOME LEARNING PICK AND MIX GRID

	Geography	History	PSHE	Computing	The Arts	Science
Expand	Investigate the different ways that we could tackle the effects of climate change and write an argument to persuade your local community to care more about the environment.	Imagine that you are a Roman soldier who has just conquered Britannia. Write a diary entry about your experiences, include pictures.	Research the history of your surname and produce a poster all about what you find out.	Create a step-by-step guide on how to create a poster on Canva or a sprite on Scratch. Include sub-headings and pictures of each step.	Research about the history of greenhouses and a significant designer or architect.	Explain/ create a diagram to show the life cycle of a plant. Remember to use as much topic specific vocabulary as you can in your explanations of each stage.
Creative	Design and create a model of a country that is environmentally friendly and carbon neutral. Remember to label and explain the different parts.	Create a Roman shield that is full of facts about the Roman Empire on the inside.	Create a tree that can stand in its own. Attach a labelled fruit for each member of your family.	Design your own computer and think about the features you would like it to have. What will it be able to do? How will it be able to do these new things?	Write a poem about the benefits of fruits and vegetables. Include the French names for fruits and vegetables and perform in collective worship.	Create a model of a flowering plant and label the parts and their functions.

Aim to bring in at least 6 pieces of work across the term.
